

Serial No. 08/945,574  
Art Unit 1751

C26 1.18. (amended) A laundry detergent composition [according to claim 17] consisting essentially of 0.8 ppm to 80 ppm of a ~~cellulase or mixture of cellulases~~, wherein <sup>the</sup> ~~each~~ cellulase has a ratio of tensile strength loss to antipilling properties of less than 1 [the cellulase or mixture thereof].

Please cancel claims 20-28.

C3 29. (amended) A laundry detergent composition [according to claim 28] ~~consisting essentially of an amount, effective to clean laundry in need of cleaning, of a cellulase or mixture of cellulases~~, wherein each cellulase has a ratio of tensile strength loss to antipilling properties of less than 1, and wherein [the] ~~each~~ cellulase has an amino acid sequence having more than 90% sequence identity with SEQ ID NO: 2.

Please cancel claim 30.

C4 31. (amended) A laundry detergent composition [according to claim 17] ~~consisting essentially of an amount, effective to clean laundry in need of cleaning, of a cellulase or mixture of cellulases~~, wherein each cellulase has a ratio of tensile strength loss to antipilling properties of less than 1, and wherein [the] ~~each~~ cellulase has the amino acid sequence of SEQ ID NO: 2 or a derivative thereof.

32. (amended) A laundry detergent composition [according to claim 17,] ~~consisting essentially of an amount, effective to clean laundry in need of cleaning, of a cellulase or mixture of cellulases~~, wherein each cellulase has a ratio of tensile strength loss to antipilling properties of less than 1, and wherein [the] ~~each~~ cellulase has an amino acid sequence having more than 72% sequence similarity with SEQ ID NO: 2.

#### REMARKS

The pending claims were 14-34. Claims 15, 16, 18, 19, 29, and
